

\$20 OFF

Optomap® Screening

Good through April 30, 2010

Bring this coupon to a scheduled eye exam and receive **\$20 OFF the price of your Optomap® screening** as part of your exam.

Using Optomap® technology, Dr. Stone can examine your retina without dilating your pupils. Pupil dilation is a common procedure which is uncomfortable and inconvenient for many people.

In a few seconds, Dr. Stone will capture a digital picture of your retina using Optomap. And better yet, you won't look like an owl for hours after leaving the office!
